Location: Ewa Beach, HI

Education

University of California, Los Angeles

B.S. Electrical and Computer Engineering completed June 2019

Work Experience

Tonic.ai, Senior Solutions Architect

July 2025 - Present

Tonic.ai, Solutions Architect

May 2022 - July 2025

- Achieved approximately \$2 million in Annual Contract Value (ACV) within the first year of hire by delivering strategic, customized demos and expert guidance on solution design and integration.
- Managed full project lifecycles, including requirements gathering, development, deployment, and post-implementation support.
- Relocated to lead pre and post sales business development for strategic enterprise customers in the APAC region which currently make up over 40% of our yearly pipeline.
- Collaborated with cross-functional teams to gather feedback, address customer challenges, and identify new AI-driven product opportunities.
- Led the digital transformation of our customer success infrastructure by integrating AI-powered analytics, scaling our ability to proactively manage customer health and secure long-term renewals

Clearbit (now Hubspot), Senior Technical Support Engineer

January 2021 - May 2022

- Supported enterprise clients in troubleshooting and re-implementing solutions across multiple platforms, reducing technical roadblocks and accelerating adoption.
- Created renewal and upsell opportunities with strategic customers by providing best practices and methodologies tying highly technical features to business goals
- Led several quarterly initiatives to build improved automation processes and create reusable content that reduced first response time and final resolution time of our Technical Support helpdesk each by over 50%

Talkdesk, Integrations/Expert Services Engineer

July 2019 - January 2021

- Developed custom demo-able software solutions, including creating custom middleware or Salesforce Lightning applications, to tie technical features to customer business values.
- Spearheaded a continuous improvement initiative for engineering processes and organization that's still being used by our entire client services engineering team.
- Built implementation methodologies and technical training programs for professional services team members by creating sandbox environments and hosting 'case study'-type challenges

Selected Projects

Co-Founded a startup backed by UCLA startup accelerator

May 2017 - May 2018

- Personally pitched my team's business idea to groups of angel investors and VC's while also leading agile development cycles and managing go-to-market strategies

Talkdesk Callbar Custom Solutions

2020

- Addressed high-impact gaps in Talkdesk's integration suite by building a real-time sync with Zoom and Microsoft to help multiple deals get across the finish line--several with over \$1M ACV
- Demos: <https://drive.google.com/drive/folders/1yzIYBTbOExXPapivPT9J9VubpWxNsvq-?usp=sharing>

Skills/Interests

- Python, SQL, Java, Javascript, HTML & CSS, Java, C++ (In order of aptitude/experience)
- Advanced knowledge in CRM, CDP + ETL software, Databases, CI/CD, and API integrations
- AWS Certified Cloud Practitioner
- Google IT Support Professional Certificate on Coursera
- Building Containerized Applications on AWS Certificate on Coursera
